# Faculty Diversity Statistics

David Geffen School of Medicine  
*and*  
School of Dentistry

2005-2006

## PREFACE

At UCLA, a public university located in one of the most heterogeneous regions in the world, diversity is an indispensable element of academic excellence. We are fundamentally committed to including and integrating within the campus community individuals from different groups as defined by such characteristics as race, ethnicity, gender, socioeconomic background, religion, sexual orientation, age, disability, and intellectual outlook. This commitment requires efforts to attract to the campus members of historically underrepresented racial and ethnic groups. However, to create a rich academic experience and intellectual and cultural environment for everyone, we extend our concern beyond representation to genuine participation. Our commitment to diversity entails devising strategies and programs to realize its benefits fully in education, research and service. This commitment inevitably means an openness to change—indeed, to transformation.

—The Chancellor’s Advisory Group on Diversity

## **INTRODUCTION TO UCLA DIVERSITY STATISTICS: SCHOOL OF DENTISTRY AND THE DAVID GEFLEN SCHOOL OF MEDICINE (2005-2006)**

This is the first volume of *Diversity Statistics* that focuses only on the School of Dentistry and the School of Medicine. The monograph that focuses on the full campus provides a snapshot of the regular rank faculty with respect to gender, race and ethnicity. The schools of dentistry and of medicine have a substantial number of faculty in other series, participate in a compensation plan, and have faculty in satellite centers, which suggested an additional monograph to provide a fuller picture of the faculty in these schools. Thus, this volume is a companion to the monograph that focuses only on the ladder faculty in the regular series.

This volume covers six series: three which carry Academic Senate membership (Regular Series, In-Residence series and Clinical X series), and three which do not carry Academic Senate membership (Adjunct, Clinical Compensated and Professional Researcher). All of these series, however, are academic titles that require a Council of Academic Personnel (CAP) review for promotion. Because some of the clinical faculty in medicine are located off campus, the breakdown with respect to on- and off-campus personnel is also included, as well as the total number of faculty in each of the series that make up the department.

The data presented are only by academic departments. Other structures such as centers and interdisciplinary programs generally draw their faculty from existing departments so they are not included here. The counts here are by FTE (full time equivalent) and not head count. Split appointments are included so that all departmental counts reflect the partial faculty FTE attached to their departments. For that reason, many departmental totals reflect only partial FTEs.

The data presented here are also posted on the Office for Faculty Diversity website:  
<http://www.faculty.diversity.ucla.edu>.

I hope you find this monograph a useful resource.

Rosina M. Becerra  
Associate Vice Chancellor  
Office for Faculty Diversity

## BRIEF SUMMARY

### Dentistry

- About 50% of the faculty (N=41) are in the regular professorial series. In this series 17.1% are women, 5% are from underrepresented groups (African American, Hispanic, Native American), and 26.8% are Asian/Asian American.
- The next largest series are Adjunct Professors (N=16.1) of which 10.9% are women, 6.2% are underrepresented groups, and 53.4% are Asian/Asian American.
- On the total faculty (these six series, N=83.8), 24.6% are women, 4.8% are from underrepresented groups, and 33.5% are Asian/Asian American.

### Medicine

- About 21.3% of the faculty represented in these six series (N=362) are in the regular professorial series. In this series, 17.7% are women, 6.9% are from underrepresented groups (African American, Hispanic, Native American), and 13.5% are Asian/Asian American.
- The largest proportion of the faculty is in the non-senate Clinical Comp series (27.1%). In this series, women represent 37.2%, faculty from underrepresented groups represent 9%, and Asian/Asian Americans represent 25%.
- Reviewing the distribution of women, underrepresented groups and Asian/Asian Americans over the six series, more than 50% of each of these groups are in the non-senate Clinical Comp and Professional Researcher series.
- Among the distribution of women and minority faculty over the six series, more than 50% are at the Assistant Professor rank.
