# UNIVERSITY OF CALIFORNIA DIVERSITY STATEMENT

## RECOMMENDED TO THE UNIVERSITY OF CALIFORNIA BY THE ACADEMIC SENATE OF THE UNIVERSITY OF CALIFORNIA

*Adopted by the Assembly of the Academic Senate May 10, 2006*

*Endorsed by the President of the University of California June 30, 2006*

*Adopted as policy by the Regents of the University of California September 20, 2007*

The diversity of the people of California has been the source of innovative ideas and creative accomplishments throughout the state's history into the present. Diversity — a defining feature of California's past, present, and future — refers to the variety of personal experiences, values, and world views that arise from differences of culture and circumstance. Such differences include race, ethnicity, gender, age, religion, language, abilities/disabilities, sexual orientation, socioeconomic status, and geographic region, and more.

Because the core mission of the University of California is to serve the interests of the State of California, it must seek to achieve diversity among its student bodies and among its employees. The State of California has a compelling interest in making sure that people from all backgrounds perceive that access to the University is possible for talented students, staff, and faculty from all groups. The knowledge that the University of California is open to qualified students from all groups, and thus serves all parts of the community equitably, helps sustain the social fabric of the State.

Diversity should also be integral to the University's achievement of excellence. Diversity can enhance the ability of the University to accomplish its academic mission. Diversity aims to broaden and deepen both the educational experience and the scholarly environment, as students and faculty learn to interact effectively with each other, preparing them to participate in an increasingly complex and pluralistic society. Ideas, and practices based on those ideas, can be made richer by the process of being born and nurtured in a diverse community. The pluralistic university can model a process of proposing and testing ideas through respectful, civil communication. Educational excellence that truly incorporates diversity thus can promote mutual respect and make possible the full, effective use of the talents and abilities of all to foster innovation and train future leadership.

Therefore, the University of California renews its commitment to the full realization of its historic promise to recognize and nurture merit, talent, and achievement by supporting diversity and equal opportunity in its education, services, and administration, as well as research and creative activity. The University particularly acknowledges the acute need to remove barriers to the recruitment, retention, and advancement of talented students, faculty, and staff from historically excluded populations who are currently underrepresented.

## INTRODUCTION

*UCLA Faculty Diversity Statistics Monograph* is published annually and comprises two volumes. Volume One provides a snapshot of the regular rank faculty with respect to gender, race, and ethnicity in the schools, divisions, and departments on the UCLA campus. Volume Two focuses only on the David Geffen School of Medicine.

The David Geffen School of Medicine monograph presents a current year diversity profile of the regular rank and non-regular rank faculty in the major series that are reviewed by CAP. Because the School of Medicine faculty is represented in a broad number of academic series, participate in a health sciences compensation plan, and work in satellite centers, this additional monograph provides a fuller picture of the faculty.

This volume covers five academic series: three which carry Academic Senate membership (Regular series, In-Residence series, and Clinical X series), and two which do not carry Academic Senate membership (Adjunct series and Clinical Compensated series). All of these series, however, are academic titles that require a Council of Academic Personnel (CAP) review for advancement. Because some of the faculty are located off campus, the breakdown with respect to on- and off-campus personnel is also included, as well as the total number of faculty in each of the series that make up a department.

The data presented are by academic department and represent headcounts only. Other structures such as centers and interdisciplinary programs generally draw their faculty from existing departments so they are not included here.

The data presented here are also posted on the Faculty Diversity & Development website: <http://www.faculty.diversity.ucla.edu>.

I hope you find this monograph a useful resource.

Christine Littleton  
Vice Provost  
Diversity & Faculty Development
