2008 Regular Rank Faculty Diversity Statistics

Excellence Through
Diversity

UCLA

UNIVERSITY OF CALIFORNIA DIVERSITY STATEMENT

**RECOMMENDED TO THE UNIVERSITY OF CALIFORNIA BY
THE ACADEMIC SENATE OF THE UNIVERSITY OF CALIFORNIA**

Adopted by the Assembly of the Academic Senate May 10, 2006

Endorsed by the President of the University of California June 30, 2006

Adopted as policy by the Regents of the University of California September 20, 2007

The diversity of the people of California has been the source of innovative ideas and creative accomplishments throughout the state's history into the present. Diversity — a defining feature of California's past, present, and future — refers to the variety of personal experiences, values, and world views that arise from differences of culture and circumstance. Such differences include race, ethnicity, gender, age, religion, language, abilities/disabilities, sexual orientation, socioeconomic status, and geographic region, and more.

Because the core mission of the University of California is to serve the interests of the State of California, it must seek to achieve diversity among its student bodies and among its employees. The State of California has a compelling interest in making sure that people from all backgrounds perceive that access to the University is possible for talented students, staff, and faculty from all groups. The knowledge that the University of California is open to qualified students from all groups, and thus serves all parts of the community equitably, helps sustain the social fabric of the State.

Diversity should also be integral to the University's achievement of excellence. Diversity can enhance the ability of the University to accomplish its academic mission. Diversity aims to broaden and deepen both the educational experience and the scholarly environment, as students and faculty learn to interact effectively with each other, preparing them to participate in an increasingly complex and pluralistic society. Ideas, and practices based on those ideas, can be made richer by the process of being born and nurtured in a diverse community. The pluralistic university can model a process of proposing and testing ideas through respectful, civil communication. Educational excellence that truly incorporates diversity thus can promote mutual respect and make possible the full, effective use of the talents and abilities of all to foster innovation and train future leadership.

Therefore, the University of California renews its commitment to the full realization of its historic promise to recognize and nurture merit, talent, and achievement by supporting diversity and equal opportunity in its education, services, and administration, as well as research and creative activity. The University particularly acknowledges the acute need to remove barriers to the recruitment, retention, and advancement of talented students, faculty, and staff from historically excluded populations who are currently underrepresented.

INTRODUCTION

UCLA Faculty Diversity Statistics is published annually. This monograph provides a snapshot of the regular rank faculty with respect to gender, race, and ethnicity in the schools, divisions, and departments on the UCLA campus. These data reflect all appointments, departures, and promotions on the UCLA payroll and were reviewed by the schools and divisions as of October 1, 2008.

This monograph includes availability data that provide estimated numbers of tenured and tenured-track faculty of a particular underrepresented group in a particular field. The availability of a group, when compared with the actual number of faculty of a particular group in a unit, provides a rough estimate of underutilization in the academic unit. In general, availability data represent the potential faculty pool whose doctoral degree or terminal professional degree (such as a J.D., etc) is the same as the departmental discipline. In some academic areas, primarily in professional schools that tend to employ a multidisciplinary approach, a number of disciplines may be represented and therefore the availability data represent graduates with degrees in the specific area of study (i.e. Management, Public Health, etc.). (The calculation of these estimates is outlined in Appendix A.)

Presentation of Data

The data presented are by academic department. Other structures such as interdisciplinary programs (IDPs), centers, or institutes are not included here. Most faculty are represented in home departments; however, many faculty may have a portion of their FTE attached to an institute or IDP. In this volume, split appointments are represented so that the departmental data reflect the portion of the faculty FTE (full time equivalent) attached to each department. For that reason, many departmental totals reflect partial FTEs.

Historical data on regular rank faculty by women and underrepresented groups for each school, division and department are shown graphically. The graphs show the percentage of women and underrepresented groups in the academic unit for the past five years.

The data presented here, as well as additional faculty demographic data are posted on the Faculty Diversity & Development website at <http://www.faculty.diversity.ucla.edu>. Also posted on this site are additional availability data on women and underrepresented groups for both tenured and tenured-track (entry level) positions for disciplines and sub-disciplines.

We hope you find this monograph a useful resource.

Rosina M. Becerra

APPENDIX A

ESTIMATES OF ACADEMIC AVAILABILITY

In 2008, UCLA has continued to make progress in developing more accurate availability estimates for academic positions, focusing attention on updating and refining statistics on the diversity of potential applicants with the appropriate qualifications for untenured and tenured positions in each school.

For the Divisions in the College of Letters and Science, availability estimates were based on the National Opinion Research Center (NORC) doctoral data in specialties represented in each Division.

For the School of Dentistry, availability estimates were based on a combination of IPEDS (Integrated Postsecondary Education System) data on doctorates in dental clinical sciences/graduate dentistry and data on current tenure-track faculty in U.S. dental schools from the American Dental Education Association.

For the School of Nursing, availability was estimated based on data from the American Association of Colleges of Nursing (AACN) on graduates of doctoral programs as well as full-time faculty in U.S. schools of nursing (both members and non-members of AACN).

For the School of Public Health, availability estimates were based on data from the Association of Schools of Public Health (ASPH) on the diversity of doctorates in Public Health, doctoral data from NORC on specialties of current faculty, data from the AAMC on the diversity of current ladder-rank faculty in U.S. medical schools in the specialties of current faculty and on the diversity of recent recipients of the M.D. degree.

For the School of Arts & Architecture, availability numbers were drawn from: the National Architectural Accrediting Board (NAAB) estimating current tenure-track faculty as well as recipients of masters degrees in architecture from schools of architecture nationwide; from the Digest of Educational Statistics on full-time faculty in Fine Arts in U.S. universities; from IPEDS on recent doctorates in Musicology and Ethnomusicology; from the National Association of Schools of Music on current tenure-track faculty in Music; from IPEDS on post-BA music degrees, on post-BA degrees in Design & Visual Communications and post-BA degrees in dance; and from NORC data on doctorates in the current faculty's specialty areas.

For the School of Engineering and Applied Science and the Anderson School of Management, availability estimates were based on NORC doctoral data in specialties represented in each school.

For the School of Law, availability estimates were based on data from the American Association of Law Schools (AALS) on women and minority faculty in U.S. Schools of Law, as well as on the Faculty Appointments Register, and the AALS registry of applicants for law school faculty positions.

For the School of Public Affairs, availability estimates were based on data from NORC on doctorates in the specialties of current SPA faculty.

For the School of Theater, Film, and Television, availability estimates were based on data from NORC on doctorates in disciplines represented in the school, data from the Directors Guild of America on the diversity of working members, data from the Actors' Equity Association on the diversity of members, data from the National Center for Education Statistics on recent recipients of the Master of Fine Arts degree in Visual and Performing Arts, data from American Cinema Editors on the diversity of members, data from the Writers Guild of America on the diversity of its members, and IPEDS data on post-BA degrees in specialties represented in the School.
